EXPERIENCE

iClosed

Remote (Florida, US)

Software Engineer

Aug 2025 – Present

- Built iClosed’s **public API platform** OAuth 2.0, rate limiting, OpenAPI/Swagger versioned docs, and an **MCP server** now serving **10,000+ partners** and processing **1M+ API requests/week**.
- Integrated **device fingerprinting** into the booking pipeline, reducing a customer’s **thousands of IP-rotation spam bookings to zero** and protecting platform reliability across all public calendar forms.
- Built **AWS CloudFront**-based OG link previews for **10,000+ events** and **1M+ bookings**, enabling rich social previews across all scheduling pages and improving SEO discoverability.
